The Chaplain on Review.

BY TENELLA.

At a review of the army of Virginia, the Rev. Mr. Patterson, Chaplain of a North Carolina regiment, appeared on the field in his cassock and bands, with a prayer book in his hand. As the regiment passed before him, Gen. Lee raised his hat and said: "I salute the church of the Living God:"

"There's to be a grand review, boys, so see that your arms are right,
Mars Bob will excuse a shabby coat, but never a shabby fight;
And though to-day we are playing, and it's nothing but review,
Who knows but to-morrow morning we'll have real work to do;
So look to your cartridge boxes and see that your guns are clean,
Your knapsacks all in order, and bayonets fit to be seen.
Don't mind if your coats are tattered, so are your battle flags too,
For many a hard campaign Mars Bob has carried us through;
But brush up your old gray jackets, and do the best you can,
For he looks behind the uniform and sees the real man."

"Yes," said the Chaplain softly, "and my men, God holds a review
Through me every Sunday morning, and this is what you must do,
Prepare your souls for inspection, and see that your hearts are right,
And that every man among you is armed against sin to fight:
Remember your daily actions are the uniforms you wear,
And God will pardon its tatters, if the love of Christ is there;
For the flesh is often weak when the spirit is truly willing,
Unless with His ammunition our souls we are always filling;
For though in the eyes of the world your outward man may be right,
Without the love of the Saviour you never can win in the fight.
So, brush up your uniforms well and do the best that you can,
And remember, behind the soldier, God looks at the heart of the man."

'Twas thus a word in season the Chaplain spoke to them then,
And it fell, not by the way-side, but into the hearts of the men;
And when they stood for inspection, before the grand review,
He, in his dress of office, stood with the regiment too;
And he said, "although I honor my coat of Confederate gray,
I come in full dress uniform, a priest of the church to-day,
And this is the battle flag that before my men I'll bear"—
And then, as he spoke, he showed them the BOOK OF COMMON PRAYER,
And when in those canonicals, at the grand review he trod,
Gen. Lee uncovered his head to "THE CHURCH OF THE LIVING GOD."

"The soldiers' name for Gen. Lee.

[From the Land We Love.]

The Haversack.

We heard a soldier, at a depot in Georgia, give an account to a very appreciative crowd, of the surprise of the enemy's camp at Cedar Creek, by the troops under Early; and of their own subsequent defeat and utter rout, on the same day. "We tuk the yankees on a sundden jist at daylight, and run 'em out'n thar camps.—Jerusalem! how they did run, jist like rabbits and the boys arter them! They woz so skeered, they didn't stop to shoot at us. Want thar good things in them yankee camps? You better believe me thar war; cheese, and herrin, and mackrel, and coffee, and boots, and injun rubber fixins. 'Twar the biggest store I ever see. I fairly eat till I war sick. Then I lied down and tuk a nap. I badn't got half sleep 'nuff, when I hearn the boys a hollering "the yankees!" I kinder rubbed my eyes, and thar war the yankee cavalry a comin' shore 'nuff, the horses snortin' and cavortin', and the yankees a whoopin' and a hollerin'. I had four par of cavalry boots round my neck, when I lied down to sleep. One for me, one for daddy, one for Bill and one for Sam; Bill and Sam is my brothers, you know. But when I see the yankees a comin', sez I to myself, sez I, 'these old shoes will do me to tramp in a while longer'. I jist throwed 'way one par and then I tuk to my scrapers. Didn't this child run? *Gentlemen*, did you ever see a deer run with the hounds arter him? Pshaw! 'twas a baby runnin' to the way I run. I looked round and see a yankee a comin' on a big black horse, with his cuttin' knife raised up to slick off my head. I could feel the hot ar from the horse's mouth a blowin' on me, like a steam ingine." "Why didn't you shoot the yankee?" asked one of the excited crowd.—"Stranger, how kin a man shoot with nary a gun. Do you think when I started a trottin', I toted that gun with me? Nary a time. I never thought wonst of my gun. No, stranger, I didn't shoot that yankee. I jist throwed Bill's boots at his head, and *the feller stopped to git 'em.* Didn't I heel it then? But he wos a comin' a gin, and I shied Sam's boots at him, and he *stopped for 'em too.* Sez I to myself, sez I, 'I'll save your boots, daddy.' But that perseverin' yankee was a comin' agin, and daddy's boots had to go too. I war gettin' powerful weak like, and everything about me feeled kinder heavy. So as I run, I poked my hand in my pocket, tuk out my knife, and screw-driver, and wiper, and my last chaw tobaccer, which Bill Sykes gin me, and I throwed 'em all away. But that 'aggravatin' black horse was a blowin' his steam on me agin, and hadn't thar been some bushes thar, I'd a gone up sartin. The yankee stopped at them bushes, *but I didn't.*—Gentlemen, I would have been runnin' yet hadn't been for an acci-*dent.*" "What was that?" inquired a listener. "Well, as I war a runnin', I met one of our cavalry couriers, and he *coazed* me to stop." "How did he do that?" "Well, he jist said that he war sent by old Jubal to stop stragglers, and he put a pistol at my head and swore powerful, and said he would blow my brains out, if I didn't stop. That wur the acci-*dent*, gentlemen, and my best respects to you."

OBJECTION 1.

I'M TOO POOR; I CAN'T AFFORD IT.

ANSWER.

If you are too poor to save less than half a dollar per week, at from 30 to 35 years of age, or proportionately at other ages, and find it so difficult to do so—should you be taken away by death, how bitterly poverty will strike home to your widow and children, or those dependent on you! Is it not worth a struggle to avoid this, and give them at least $1,000 by paying so small a sum? *It costs just $2,00 per month to insure $1,000 at the age of 32 years.*

OBJECTION 2.

I've talked to several of my friends, and they all advise me to have nothing to do with it.

ANSWER.

Will your friends undertake to provide for those you leave behind, in case you do not live long enough to save money? Ask them, and be guided by their answer.

OBJECTION 3.

I can't make up my mind; call again.

ANSWER.

Your other objections have been answered. I appeal to your own common sense to answer this for yourself, aided by

THREE PRACTICAL REFLECTIONS.

FIRST.—Nothing is so uncertain as Life.

SECOND.—No provision is perfect that is contingent upon the duration of your Life, which is not immediate.

THIRD.—The only immediate provision is that provided by Life Insurance.

The Fall Session of this Institution closed 23rd. day of December. The Spring Session opened the 1st. Wednesday in January, and will continue 20 weeks.

The success of this school has been without a parallel. A new building has just been completed, by which a large additional number can be accommodated. We are determined to make our pupils as comfortable as they can be made anywhere, and to afford them all the advantage for a thorough and extensive education, that can be found at any First class Female College, North or South.

The location is a most delightful one. The Mineral Water is too well known to the whole country to need a remark. Even invalid young ladies may secure a thorough education, and at the same time the restoration of their health. Reference is made to every intelligent Physician in the State, as well as to the hundreds who have found relief here.

The young ladies all worship in the College Chapel, and hence no extra clothing is required. *In the single item of dress parents can save 25 per cent. of the entire expense incurred by sending to Boarding Schools located in cities or villages.* This Institution is certainly one of the cheapest and most easy of access in the Southern States. Besides, it offers the most superior advantages in every respect.

IN WHICH YOU ARE INTERESTED.

I PROPOSE for the protection of the citizens of Raleigh and surrounding country, against the imposition of those so-called Cost Stores, to furnish each and every person, the New York Cost of any goods they may want to buy; by this means they can tell whether they are buying goods at Cost or paying a profit on them.

Call, and we will give you a memorandum of Cost prices.

Most of my large stock I will sell at cost but I have goods that I will not sell in that way, and neither will those merchants who make such a flourish about selling at Cost.

No merchant in this place has purchased his Goods any cheaper than I bought mine. Any assertion to the contrary is *false*; and I will guarantee to sell Goods at less than any Cost House. All I ask is an opportunity to prove the truthfulness of this assertion.

AN INVALUABLE DISCOVERY,

BY WHICH

Water can be Turned into Money.

Truly has it been said, "That the riches of this world, lie buried in the bowels of the earth." The precious metals that are daily taken from thence, readily procure all the luxuries and comforts—save, the great boon to the sick, Health—without which, life is a burden, and the millions of the Rothschilds' would fail to secure.

To females suffering from Leucorrhœa, (or Whites, as it is commonly called,) I, as a Physician of many years experience, would say, that you need not longer endure a miserable life of pains, aches and general debility, or weakness, the consequence of this deplorable disease.

All Physicians, of modern teaching, will admit the great difficulties in arresting this destroyer of health, for various reasons unnecessary to mention. Patients suffering therefrom will as readily agree, that medicines, however carefully prepared and used fail, in most instances, to afford relief; and in many, from long continuance, produce debility, thereby increasing the malady they were expected to relieve.

Deeming it a great privilege to be a public benefactor, and add to the comforts of the afflicted, by placing before them means of relief, I here give the history of a few cases of great interest that have fallen under my professional care.

Mrs. ——, a lady of the highest standing in the city of Charlotte, N. C., had been an incessant sufferer from Leucorrhœa for three years. Her cheeks were blanched, her skin always cold and almost transparent—in fact she seemed not to have a red corpuscle in her body. So weak was she, that it was with great difficulty she could ascend a flight of stairs, without feeling faint and exhausted. Palpitation of the heart, head-ache, and a dizziness in the head, besides excruciating pains in the back, together with a bearing-down sensation of the region of the womb, were constant and alarming. Notwithstanding they were but symptoms of extreme debility, induced or kept up by the never ceasing drain from her system. In this condition, every means at my command was used for her relief. Remedy after remedy was tried. Every means recommended by our modern authors proved worthless in her case. Hearing of the case of a servant, whom I had formerly treated, (belonging to Mr. Cross,) having been very much benefitted by this mineral water, I resolved, (without further inquiry,) as the last resort, to recommend to her its use. Anxious to be restored once more to health, she readily acceded to my proposition, and visited this well daily. Soon improvement was visible, and in the short space of three months her health was entirely restored. A living monument to the great curative virtues of this water.

The next case of great interest is that of the servant woman already spoken of. Seven years previous to the discovery of this well, Mr. Cross engaged my services in the care of this woman. I made most careful examination and searched out all of the particulars of her history. She had suffered for 18 years with Leucorrhœa, and being sorely afflicted therefrom, it was universally known in our community, that she was the martyr of the town. I found her with all of the distressing symptoms attending this malady, and could only afford her temporary relief. Time passed on, and still her afflictions did not abate. She abandoned all hope of recovery, and resolved to take no medicines, but to resign herself to the fate which seemed to await her. Her master just then having discovered this well, advised that she should drink freely of the water, as it might be of some benefit to her. Like a drowning man catching at straw, she tried it, and improvement was soon perceptible. Her servance was crowned with success, and this day she is a strong and healthy woman, and can be seen at the residence of her former master, and will take great pleasure in relating, *in detail*, to any visitors, the history of her case.

Many other cases known to us, of equal interest, have been cured, and others are being daily benefitted.

Cross' fitting up this valuable property, as a resort for invalids. Under these circumstances, the owner (Mr. George Cross, of Charlotte, N. C.,) is willing to dispose of his property at the very reasonable price of $10,000 in U. S. currency, and will communicate with any one either by letter or personally.

The plantation of 160 acres of fine and productive land is situated within one and a half miles of the city of Charlotte, N. C., immediately on the Wilmington, Charlotte and Rutherford Railroad. A fine residence, with modern improvements and conveniences, together with all necessary buildings attached, have just been completed, and to capitalists seeking investments no finer inducements could be offered.

THE SENTINEL.

WM. E. PELL, SEATON GALES, } Editors.

Wednesday Evening, Feb. 13, 1867.

Notice to Subscribers.

The time of a number of our subscribers has expired. They have failed to renew though notified. After this issue, the paper will be discontinued to such as have failed to pay, outside of the city. We regret to be compelled to do this, but necessity is laid upon us.

Jan. 25 tf.

We warn the people that many of their Representatives in the Legislature, and political tricksters and demagogues generally, are doing a great deal of harm, and are unworthy of public confidence. We say, without any sort of hesitation, that the great mass of the people are being deceived by so-called "leading men." We are not a radical and neither do we sympathize with the radical party in any respect whatever; but at the risk of displeasing the public "saints" and "salt of the earth," and in defiance of the strong party combination which now controls this State, we intend to speak out in opposition to bad management.

The last Charlotte *Democrat* closes a short article, in which it alludes to the plan recently proposed by Southern gentlemen, as a basis of settlement of our national difficulties, and closes with the above extract.

The *Democrat*, like the *Sentinel* and its cotemporaries, generally, does not like the plan, but not for the same reasons. We only can favor the plan as a basis of present and final adjustment. If it is not accepted in that spirit, we can see little good to grow out of it.

But the above extract, with the knowledge we have of the Legislature and the movements of Southern gentlemen generally, we regard as unkind, and originating in a mistaken view of their aims and desires. If there are political tricksters and demagogues in the Legislature, who look to party ends, in national matters, we are totally ignorant of it. If there are political stricters who are playing the demagogue, among men claimed to be conservative in national affairs, in what they do towards promoting an early settlement of our difficulties, we do not know it. We suppose that in this State in reference to national matters, there are but two sides, two interests and two parties; the radicals and conservatives. In the Legislature, this is certainly the only distinction, only difference in national affairs. Nor is there any evidence of a partizan movement among those Southern gentlemen, who drew up the plan of adjustment at Washington. They have always differed and still differ among themselves.—They propose nothing which does not embrace in its benefits or injuries, all the Southern people alike. The proposition itself contains no trickery, nor does it aim at any partizan purpose whatever, as we understand it. It simply looks to a settlement of the difficulties between the North and South. If Southern men think it will not hold water, will not answer their purposes, let them reject it. But we can see no just grounds whatever to charge either those who favor it or those who reject it, with playing the partizan trickster [illegible]

The Congress.

The passage of the bill providing a new government for the State of Louisiana by the House on yesterday, will doubtless cause much surprise and regret. But it is simply silly to be surprised at any thing now-a-days. Whether this bill will become a law and will be applied to all the other States, is certainly not known, but one thing may be relied upon, that if the ultra spirit which predominates over the House, also prevails over the Senate, it will be done, either during the present session or by the next Congress. We will lay the bill before our readers to morrow.

A Rogue Caught.—We are glad to announce that, by the vigilance of Dr. Jobe, the Special Mail Agent in this State, the Deputy Postmaster at Huntsville, Yadkin Co., N. C., was arrested this week, for purloining money from the mails. On the examination sufficient evidence was produced for his conviction, and he was committed for further trial, to the jail at Winston, because of the insecurity of the Yadkin County jail. We have had several complaints from that office, of the non-arrival of money, which had been sent us, and the development shows who got it. We advise all persons connected with the mails, to be honest, or very sharp in their roguishness, or Dr. Jobe will catch them. Dr. Jobe suggests to the people the propriety of being cautious in sending money by the mails. The department is in no way responsible for losses, and when it can be done, money ought to be sent by Express or private hands. This is especially necessary, until the department can fully organize and get into complete working order the mail system in the State. Rogues must not *presume* too much on the patience of *Job e.*

New Paper.—In a few days a specimen copy of the *Independent Press*, Concord, N. C., will be issued, and will be started at that place, as soon as sufficient encouragement is given. The specimen copy which we have seen, is superior to ordinary weeklies. The *Press* will be devoted almost entirely to the domestic interests of the County of Cabarrus, its vicinity and the State, and will generally eschew politics; but when necessary, will warmly support and defend the principles of constitutional liberty. The proprietors of the *Press* are practical printers and industrious men, and will, if encouraged, publish a good paper. The people of Cabarrus and vicinity should give them every encouragement.

Two colored men in Charlotte we see by the *Times*, urge the colored people of that section not to go South. They consider that colored people are treated better in North Carolina than in the far South, and can do as well for themselves.

"The Land We Love."

The February number has come, and spread before us its feast of *good* things—we will not say "fat." Each guest will find something to his liking. We like it all. Its cuisine is *tout a fait* to our taste, omnivorous as an Editor's taste is presumed to be.

The planter, as he was called in days of yore—farmer now—will study with interest and care the "Principles of Agriculture," by Hon. Thos. G. Clemson, and learn much from the perusal of that article. He will also read with profit the essay on "Guano," from the pen of Professor Blake, and learn how to distinguish the different grades of that savory article, as well as the best modes of applying the same to his grounds. We regret that the learned Professor has not taught us how to pronounce the disputed word. In former times we remember that one of our worthy citizens was much laughed at by a Metropolitan paper, for his independent way of speaking its name,—and wore and wore, during a whole gubernatorial campaign, the name of "Old Gwanny." We are not quite sure but it was sometimes spelt with an "*r.*" But all that is changed now.

Those who once wore the grey, and are not ashamed of it now—and who of the brave ones are?—will find much to instruct and please them in the "Suppressed part of Gen. Beauregard's Report of the Battle of Manassas," called the Bull Run races by some, "The College Hospital at Gettysburg," The "Sketch of Gen. A. P. Hill," a genial and well-written article; and in the multifarious camp stories, camp jokes and fun of "The Haversack." "Shakspeare at Hilton Head," and "John Brown," he "whose soul is marching on," are a little provoking, but not to the aforesaid Greys.

Statesmen wil peruse "Maximilian and his Empire," by Gen. E. G. Lee, with profound interest; and Southern statesmen and patriots will feel prouder of their native land after reading "The Enterprise and Energy of the South," by J. Manigault.

Those whose delight is in song and story will find something better than vain recreation in "The Song of the South," by Lucas, very sweet and very sad; "The Victory of Faith," by Col. Hawkins, while in prison, a most splendid poem; "The Search of the Sages," an excellent lyric, but not quite equal to Theo. Hill's kindred poem, "The Star above the Manger;" the poem by Dr. Ticknor, called "Page-Brook," the very soul of wail, over desolated homes; and in the story, in prose, by Mrs. Downing, of a young Louisiana girl who has just entered the matrimonial state, and who, as the name of the story is "Perfect through Suffering," we greatly fear drew a blank in the grand lottery of life. Only the first chapter of her married life is yet published; but we shall follow her on, as her history is unfolded, praying that our fears may not be realized. It is of course well written.

"The Last of the Crusaders," by C. C. Read, is continued in this number of the Magazine—and has considerable merit.

There is also a continuation of "Twelve Months in Spain," by V. C. Barringer, Esq.—This number contains the incidents of travel from Madrid to Cordova which are quite [illegible] that Mr. B. laid in abundant treasures while attached to the Spanish legislation, and we hope he may find leisure and inclination to scatter them now in commendable profusion, after having hoarded them so long. No one could do it more handsomely or gracefully, than he.

To end our notice: There is a purity in the "Land we Love," that is really refreshing. The articles are nearly all written in good old honest Saxon. There is no trippery nor shadow of dilettantism. They suit the cultivated tastes of our people. And we rejoice that the enterprise has succeeded so well. We see it stated that 12,000 copies are published every month.—If this be so, the distinguished editor has achieved the success which he so eminently deserves.

The English Board of Trade has issued some valuable agricultural statistics of Great Britain and Ireland during the past year. Of the 56,964,000 acres of land in Great Britain, 28,704,867 acres were cultivated, and of the 20,332,641, acres of land in Ireland, 15,549,706 were cultivated. In Great Britain, 9,287,784 acres raised grain crops, 3,552,530 acres garden vegetables, 964,937 were under bare fallow, 3,694,224 raised grass crops, and 11,148,814 were pasture or meadow lands.

In Ireland, 2,173,438 acres raised grain crops, 1,482,091 vegetables, 28,060 were under bare fallow; 1,609,495 raised grass crops, and 10,002,656 were pasture lands. In Great Britain, there was an acre of grain raised to every 2.62 persons, and in Ireland, an acre to every 2.65 persons. Wheat is the chief grain crop raised in Great Britain, barley next, and oats the third. Indian corn is not raised in Great Britain. Oats is the chief crop raised in Ireland.

The movement of cotton is becoming large not only in the number of bales, but in value.—The receipt of cotton at the ports for the four weeks ending Febuary 2, were about three hundred thousand bales, and the exports to foreign ports during the same time about one hundred and eighty thousand bales. The gold value of the exports was about eighteen millions of dollars. This large sum, in connection with the value of exports of tobacco, provisions, and other products, will account for the depression in exchange and the partial failure of the efforts to advance the premium on gold. It is not improbable that the export of cotton will average, till early summer, one hundred and fifty thousand bales per month.—*N. Y. World*

Over seventy-six hundred bales of cotton arrived at this port yesterday, viz: 4047 in ship Sorrento, from New Orleans; 1540 in bark Scotland, from do.; 838 in schooner Lizzie Batchelder, from do; 744 in schooner Enchantress, from Savannah; 400 in schooner Express from Galveston, 99 in brig Haze, from Charleston. This cotton, at $150 per bale, amounts to over one million of dollars, ($1,150,200.) The value of the Sorrento and her cargo is nearly $700,000. The underwriters are not displeased when such a risk ends successfully as in this instance.—*Boston Post, Feb. 9th.*

For the Sentinel.

"Paid by the Public."

The Constitution of North Carolina, adopted in 1776, ordained that an University should be established, and fit teachers employed in its service, who should be "*paid by the public.*"—The University has been established. So far the order of the Constitution has been carried out. The last provision, however, that competent salaries be given to its teachers, to be "*paid by the public,*" has been almost utterly disregarded. Those salaries have in some degree been derived from lands, &c., granted by the Legislature; but in a much larger degree from their own earnings. The facts on this subject are not well known. But the truth is, that since its foundation, the University has received directly from the Treasury of the State only ($17,000,) seventeen thousand dollars, for the services it has rendered for seventy years! That sum is scarcely an equivalent for the gratuitous instruction it has given to scores, or hundreds of our poor and deserving young men! Why, Virginia appropriates, *every year*, from the Treasury of the State, to her University, and South Carolina, *every year*, to her College, a greater sum than North Carolina has so appropriated *in seventy years!* In the poverty and depression of to-day those States *continue* that act of justice.—The needs of our University are no less. Why should not our Legislature be as just as they? It would simply obey the injunction of the Constitution, nothing more.

The Instructors in the University have proved steadfast in their duty in the last five trying years. It is hardly too much to say, that but for their self-denying perseverance, the Institution must have closed its doors. The Trustees, no doubt, did all they could. The country is much indebted to their resolute purpose not to give up. Yet the continuance of the University is due more to the Faculty than even to them. They received during the war their old salaries, adjusted to times of peace, in *Confederate money.* For many months the daily income of those gentlemen, was less than the wages of a common negro hand. Yet the State had placed a great trust in their hands, and they discharged it manfully. Not even hunger drove them from their posts; nor did the promise of better places and better pay seduce them. And now they get, I learn, not more than half their salaries, and that is not more than *half* the means of a comfortable living. Is not this a time when the Legislature should remember the order of the Constitution, and see to it that the deficit of salary which they can not earn shall be "*paid by the public.*" I was sorry to see that the resolution to give seven thousand dollars this year also was withdrawn. No appropriation of public monies would be more useful, and I will add more just.

I have written too much to enter now on what was my main purpose in this communication, viz: to insist that the constitutional rule, that teachers be "*paid by the Public,*" is the wisest, and, in fact, the only true method of public instruction. The rule implies that all instruction in the State shall be under the control and direct supervision of the State; shall be planned, managed, sustained every way by the State. Will not our Legislators and wise men think of this? I am satisfied that we shall never have in North Carolina a system of education, that shall be suited to our needs, complete in its parts, economical and sufficient in its administration, one that shall be worthy of a Republic, and that will fitly prepare our children to be wise men and good citizens, until the Legislature shall introduce such a system, and the State have the entire and permanent charge of it.

SENIOR.

For the Sentinel.

The North Carolina Railroad.
No. 2.

The question recurs,—why have all parties failed in the management of this Road? It has been the pet, the pride of the State. It has had for its officers and Directors our first men.—Twice, in effect, has the State paid its debts. Two other Roads were built (as was argued) to insure its complete success. Its receipts have constantly increased and are now nearly treble what they were in 1860. But, after all, the Company has gone steadily in debt, and its stock is now lower than ever before.

I repeat—why are these things so? It is idle to say that it is owing to "our own indifference, neglect and bad management." The question is, What has made us thus indifferent to our own interests, through a period of eighteen years, and under five different administrations? Mr. Turner charges no special fraud or corruption, and I doubt if any can be shown. That is not the complaint. The great interests of the State in this Road and the just rights of the Stockholders have been sacrificed, not so much by incapacity, bad faith or crime, as by a habitual neglect of duty, and loose notions of responsibility on the part of those in charge of it.—The records of the Directory—the real governing power—show that the pecuniary success of the Company has been made subservient to all the local, personal, sectional and political influences surrounding and besetting it. It is erroneously regarded as a public work, and has fallen a prey to public plunder. In point of fact, it is a private corporation, intended to make money for the Stockholders—the State included.

The best service a Railroad can render a *community*, is to pay dividends to its Stockholders. This is a sure index of efficiency. Efficiency secures safety, dispatch and fair dealing. Pay dividends and you make Railroad stocks popular. Make them popular, and you stimulate the construction of rival lines. Competition reduces fares and freights, and tends to the diffusion of life, enterprize, plenty, prosperity and pleasure throughout the land. The system thus extends and sustains itself. See this illustrated, to some extent, in Georgia, where Railroads have been built and operated solely with a view to their paying. In that State they have paid and are paying now; and we behold her rising from her ruins and stretching her arms in an air-line here to the very borders of North Carolina!

Now I charge that the Directors of the N. C. Railroad; instead of catching the inspiration of these large and noble views, and acting accordingly, have devoted themselves almost exclusively to the consideration of all the miserable, petty, selfish interests arrayed against the Road. Two thirds of their time is spent in passing motions in favor of this or that man against the Company. Instead of leaving such matters to the proper officers, and exacting of the latter a rigid accountability, the Board has constituted itself a tribunal of appeal from their offices, for all extortioners and plunderers from one end of the line to the other. The Directors all seem to have acted the part of Collecting Agents and Attorneys. Each has sought to get all he could *out of the Road* for his neighbors and friends, and all appear to have been more devoted to the particular counties, towns and sections they represented, than to the interests of the Stockholders of the State. In turn, officials and employees catch the spirit of the Board.—Looseness and disorder reign supreme. The Road suffers on all sides. It is overreached by everybody, and is made to bleed at every pore.

The extent of these evils will be fully realized by business men, when it is stated as a fact, that up to a very recent date, the Board exercised no supervision over its officials and employees. It contented itself with the published reports, or mere verbal and meagre statements in regard to the condition of the several officers; and did not have so much as a standing committee to scrutinize the monthly or quarterly expenditures made by the different officers! Not even the Treasurer's accounts were examined in detail! The most they did was to appoint an occasional committee to see [illegible] —the work of an hour. But the claims on which those vouchers were founded were rarely or never examined!

But how does it happen we have such Boards? It results from the political connection of the State, in the management of the Company. The State appointees are always effected, to a greater or less extent, by the party politics of the Country. Political power is necessarily demoralizing. So soon as the eight State Directors are known, their predilections in public life are canvassed, combinations are formed to influence the election of the four Stockholders' Directors, and thus control the choice of officers and the policy of the Road. If the State appointments are not made on party grounds, they are certain to be selected on account of mere personal or local considerations. Thus the board is invariably made up, in great part, of men, selected, not because of their pecuniary interest in the work or peculiar fitness for the duty; but for reasons and motives positively adverse to the interests of the Company. They are all apt to be politicians, who have friends to make or enemies to punish; prominent lawyers, who have neither time, taste or talent for the dull routine of figures and statistics; or shrewd wire workers, who are always selfish, and prove dangerous men, where public interests are involved.

The grand result is an army of officials, employees, contractors and "dead heads," no dividends, a rapidly increasing debt, a constantly depreciating stock, destitute stockholders and a bankrupt State!

Lest I should be charged with exaggeration and misrepresentation in the general views here expressed, I propose to give a few names, figures and facts, taken from the records. As Mr. Turner has labored with a commendable zeal to relieve the stockholders of *their* "pains in the stomach," I will do what I can to ease the bowels of the State. I have no desire to shield the directors on the part of the stockholders; some of them have acted badly enough. But my theory is, that the State is the controlling power; that her influence has, to a great extent, demoralized the whole corporation, and that if any particular person or persons can be held responsible for the mismanagement, it is the State and her Directors.

I give below the State Directors for the last two years, as a fair average of the whole class, selecting Governors of opposing politics. I also add the stock held by each, in his own right, so far as the books show. And I accompany each list with a few remarks on the proceedings and policy of the respective Boards.

STATE DIRECTORS FOR 1865, (BY GOV. HOLDEN.)

Will. Sloan,	No Stock.	H. N. Brown,	5 Shares.
J. M. Leach,	" "	A. Johnson,	5 "
R. P. Dick,	" "	N. Boyden,	10 "
W. A. Smith,	" "	G. W. Swepson,	15 "

Now, I ask the whole batch of Politicians, both great and small, to say in their hearts if it was just to the *State* to entrust her three millions in this road, to any set of men who owned only thirty-five shares of stock, or at farthest fifty-five shares? But what did they do? What we would expect? *We will see.*—They found the Road less injured in its track, its bridges, its depots, machinery, shops and rolling stock, than any leading line South. Its cotton, and other supplies, gave it a decided advantage over private persons and other Roads, in procuring labor and material. For many months it was without a rival in both freights and travel. It had an income of $939,675,83. The Board of 1863 squandered the whole of this enormous sum, and created besides an untold debt of at least $500,000,00! They could have easily declared a Dividend. But instead of doing so, they bought, when not needed, material and supplies, valued, in May 1866, at $245,587,59. They also handed over to their successors, contracts for a large amount besides. I hazzard nothing in saying, that an immense proportion of these materials and supplies, not being required for immediate use, were lost, stolen, destroyed or wasted.

They employed double the quantity of labor, both skilled and common, actually needed, and paid full double prices for everything they bought or hired. With the Stockholders starving and the State bankrupt, they indulged in all sorts of silly ornamentation and foolish display and fancy work. See for this, the cost of a single item: "Varnish $1,000." They gave high salaries and exacted no labor in return.—They paid claims not justly owing, and allowed on other debts more than was fairly due. And so on to the end of the chapter of waste and extravagance.

I know it will be said by some, that Mr. Wilkes is to blame for all this; by others, that Mr. Boyden is responsible. I say the Board, and especially the State Directors, are to blame.—They elected Mr. Boyden, and they elected Mr. Wilkes. There was no wrong in this. But if they had their senses, their eyes and their ears, they must have known what was going on; and they did not interfere to stop the abuses. There was their error, and it is this that fixes them with full responsibility. But to show the *animus* of this Board, I select from their *own orders* a single item. As early as July 1865, before we had any law fixing the value of Confederate debts, and long before other parties ever thought of adjusting such claims, this Board made haste to provide for paying certain notes given for negro hires during the war and payable in Confederate currency. And they actually agreed to allow on these claims, at the rate of from $125 to $150 hire per annum! Thus securing to certain slave-owners for the years 1863 and '64, in a twelve months hire, fully half the whole value of their property. When the "scale" was passed, this Board failed to modify or repeal their order, though most people are forced, and many glad to take the scale on such debts. I can show that another Road—the Charlotte & S. C.—adjusted all such claims "at from $3 to $4 per month." This order will lose the Company thousands, and it may be, hundreds of thousands of dollars. The subject is exhausted when I add, that most of this money goes to parties, who though strong war men, refused to take our currency, and who were not required by the officers of the Company to do so, when it had millions on hand, though saying to others "take this or nothing."

This Board closed their career, as might be expected, with a report, full of errors and misstatements, and politician like, with a large supply of undeserved self-praise. Their epitaph should be: "They were liberal with other people's money; they gave to those who were too lazy to work; and they were duly blind to the faults of their friends."

In another number—probably the last—I will pay my respects to the "Reform Board" of 1866, and give the practical results of joint management, with some high authorities against it.

THE SENTINEL.

Wednesday Evening, Feb. 15, 1867.

LOCAL DEPARTMENT.

NEW ADVERTISEMENTS.—New arrivals of goods are announced by W. Robert Andrews, who keeps on hand almost every article of Family Groceries usually called for, as well as the most choice, desired for extra occasions.

A good dwelling in a desirable portion of the city, is offered for rent.

Mr. Hamilton offers a fine variety of Evergreens for sale cheap.

Mr. Towles offers fresh Garden Seeds, &c.

J. Brown offers No. 1 Cooking Stoves, Kerosene Oil, &c.

Pulliam, Jones & Co. are receiving new importations. Cotton Yarn, No. 1 Mackerel, &c.

Mitchell, Allen Co., Newbern, offers all kind of Farmer's machinery, Builder's material, &c.

150 Shares of the Lockville Mining Company will be sold in Raleigh on the 15th of March.

Messrs. Field, Langstroth & Co., Philadelphia, present an attractive card.

LIFE AND CAMPAIGNS OF GEN. R. E. LEE.—The National Publishing Company, of Richmond, a most enterprising and vigorous Company, have laid us under additional obligations, by forwarding us the first sheets of the Life and Campaigns of Gen. R. E. Lee, by J. D. McCabe, of Va., now in course of publication by the Company. Mr. McC. is a good writer, and has, we judge, every facility to make a most reliable and readable book. Perhaps, this is what is more desired than anything else, in the list of books: *the life of Gen. R. E. Lee.* It is gotten up in excellent style, and will be embellished with a fine portrait of the General.

The same Company are the publishers of the capital volume which we recently noticed, the life and speeches, &c., of Hon. A. H. Stephens, of Ga., a work that ought to be generally circulated.

NORTH CAROLINA PRESS.—Within a week or two, we have seen the issues of four new weekly papers in this State, viz: the *Indicator* and *Courier* at Warrenton, both excellent papers, the Lincolnton *Courier* by E. H. Britton, Esq., late of the Charlotte *Times* and the Salem *Observer*, which takes the place of the *People's Press* at Salem, by J. H. Boner.

The Lincolnton *Courier* is a good paper. The Salem *Observer* is an improvement upon the Press, *and* more boldly avows its Radicalism.

NORTHERN PAPERS.—The Northern mail failed entirely last night. No papers were received North of Weldon. The Petersburg train failed to connect.

REV. H. B. PRATT, of the Presbyterian Church, has resigned the charge of the Church at Sugar Creek near Charlotte, and removed to Hillsboro and is in charge of the Church there.

REV. B. S. BRONSON, has assumed the Rectorship of the Episcopal Church at Charlotte.

DIRECT TRADE BETWEEN NORFOLK, VA., AND LIVERPOOL—ARRIVAL OF THE BRITISH STEAMSHIP PERUVIAN—THE BRITISH STEAMER DELAWARE ALMOST DUE.—The British steamship Peruvian, commanded by Captain Sir Joseph Glover, arrived at the wharf of Messrs. Wm. D. Reynolds & Bro., agents of the line between this port and Liverpool, yesterday afternoon at 3,20 o'clock.

The second of the new line is already at our wharves, and will leave before the end of the current week with over 2,000 bales of cotton, and a quantity of grain and naval stores, and is going on board as we go to press. We look for the departure of the Peruvian on Thursday, as the cotton is piled up eight tiers deep on the Messrs. Reynold's wharf, part of which is for the British steamship Delaware, looked for on Friday, as following in the wake of the Peruvian.—*Norfolk Journal.*

ENCOURAGING.—We learn that a New York merchant has sent an order to Messrs. W. D. Reynolds & Bro. to purchase a hundred bales of cotton, and ship it on his account to Liverpool by the new direct line. Good!—*Norfolk Journal.*

Congress.

WASHINGTON, Feb. 12.

SENATE.—The bill retiring compound interest notes was referred to the Judiciary committee.

Mr. Morrill introduced a bill regulating the distribution of Freedmen's bureau funds.

The Judiciary committee was directed to report on the expediency of a constitutional amendment, extending the Presidential term to six years, forbidding a re-election and abolishing the office of Vice President and the electoral college.

Mr. Sumner urged his test oath amendment which lead to a discussion of the affairs of the South.

Mr. Howard had learned from gentlemen just from Texas that fifteen murders had been committed and no convictions.

Mr. Doolittle defended the South.

Mr. Chandler gave notice of a bill repealing the tariff and establishing a uniform tariff of 50 per cent *advalorem* on all importations.

The Bankrupt bill passed 20 to 10.

Mr. Wilson introduced a bill to pay quartermasters stores taken from loyal people. Committees are to be appointed for each State, to whom all claims will be referred. Referred.

In the House Mr. Elliott's bill was resumed. It was amended by striking out the provision for one Representative to Congress. The Democrats asked time for debate. Mr. Stevens ineffectually asked its postponement for the consideration of his bill. Messrs. Boyer and Harding spoke against the bill. Mr. Elliott read a letter from Julian Neville, a grandson of the revolutionary Neville, appealing for a loyal government in Louisiana; also resolutions of the Southern Loyalists Association endorsing the bill.

The bill passed by a vote of 113 to 48.

The following Republicans voted nay: Baker, Bingham, KuyKendall, Stillwell, Thayer and Whaley.

Mr. Stevens bill was resumed and the House adjourned.

A FEW WORDS TO MY FRIENDS AND CUSTOMERS.

I advertised in the early part of the season that I would sell goods as cheap, as Yankee, Jew or Gentile, could Houses not excepted. As cheap as he who had paid for his goods, or ever intended to pay for them. And I here take the privilege to say, that I think my customers will bear me out when I say, I have done so in almost every instance.

I told the people to "come to Creech's," to buy their goods—they have come, and they are still coming—and I think they will pardon me when I say they have shown their good judgment.

I now tell them to "come to Creech's" to buy their goods.

I don't advertise my goods at New York Cost.—I intend to represent my goods to you in a fair and equitable way, and sell them fully as cheap as any so-called Cost House. And I here say to the so-called cost gentlemen, if they paid what they charge their customers for goods, I advise them to go back to the License man and surrender their license. Go back to your Land-lords and ask them to take back your houses,—and proclaim to the world that you have missed your calling, and are not fit for merchants.

I compromised my debts that I owed North before the war, by paying them at one hundred cents in the dollar.

Let them start their opposition—let them all talk. But "come to Creech's," to buy your goods. You will find me at R. Smith's corner, ready and willing at all times to serve you right.

RAW BONE SUPER-PHOSPHATE OF LIME.

Manufactured under the formula originated in 1834 and patented by

BAUGH & SONS,

SOLE PROPRIETORS, AT THE

Delaware River Chemical Works,

PHILADELPHIA, U. S. A.

This old established MANURE is manufactured from Bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and is a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano, but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1865, where it has been used with remarkable success upon

Cotton, Corn, Tobacco, and all Crops.

A trial will convince any planter of its merits.—Pamphlets containing well-known Southern evidence furnished upon application to New York or Philadelphia offices.

FERTILIZERS FOR SPRING CROPS.

WE beg to inform the trade and planters of North Carolina and Virginia, that we are prepared to furnish them with the most approved FERTILIZERS, on the most accommodating terms. We will have a stock of genuine PERUVIAN GUANO, purchased direct from the Agent of the Peruvian Government.

We have now in store, for immediate delivery, 325 tons BRADLEY'S SUPER PHOSPHATE OF LIME, which won for itself such an enviable reputation in the Cotton and Tobacco counties of North Carolina and Virginia, last season, proving itself equal, and in many important respects, superior to the Peruvian Guano. We give an analysis of it as ascertained by Dr. Hayes, one of the most eminent Chemists in the country:

Results of Analyses Made of Bradley's Patent Super-Phosphate of Lime, as now sold by Wm. L. Bradley.

100 Parts Consist of	
Moisture	5.80
Prepared animal matter, salts of Ammonia, fatty substances and Humus	38.50
Bone Phosphates of Lime, Magnesia and Iron	36.80
(Soluble Phosphates of do. 16 6-10.)	
Sulphate of Lime	16.50
Salts	20
Insoluble	2.60
	99.90

The animal matter afforded 4 2-10 parts of Ammonia when it was decomposed, and, as will be seen, nearly one-half of the Bone Phosphate is soluble.

After many analyses of your Super-Phosphate of Lime, made during the last few months, I have found your standard of quality full equal to that of any you have ever sold in former years; and I am satisfied that you include the correct principles in the manufacture. Respectfully,

A. A. HAYES, M. D., State Assayer.

We refer to the following gentlemen who tested its merits last season:

THIS well known and popular Institution is once more in successful operation, and is prepared for the reception of Cadets at any time.—It is under the direction of

GEN. R. E. COLSTON,

a graduate, and for fifteen years, (up to the commencement of the war) a

Professor of the Virginia
MILITARY INSTITUTE,
and a colleague of
STONEWALL JACKSON.

The course of the Institution is that of the Virginia Military Institute, and is such as to make the Academy a great

POLYTECHNIC SCHOOL.

A school of theoretical and applied science, in which Languages and Literature also receive a due share of attention. The discipline and instructions are on a

Complete Military Basis.

The Faculty is for the present organized as follows:

Superintendent and Professor of Military History, Strategy and Political Economy, and Instructor of Infantry and Cavalry tactics, GEN. R. E. COLSTON, late Professor of French, and of Military History, Strategy and Political Economy at the Virginia Military Institute, and late Brig. General C. S. A.

Until the appointment of additional Professors, Gen. Colston takes charge of the Department of French and English studies and Belles Lettres.

Professor of Natural and Experimental Philosophy, Ordnance, Gunnery and instructor of Artillery tactics, Major D. TRUEHEART, Graduate of the Virginia Military Institute in 1850—afterwards Assistant Professor of the Va. Military Institute—attached to the United States Coast Survey—late Major and Chief of Artillery in the C. S. Army.

Professor of Mathematics, Civil and Military Engineering, Architecture, Topographical and Industrial Drawing, and Assistant Instructor of Infantry tactics, Maj. W. A. OBENCHAIN, "first distinguished Graduate," of his Class in the Virginia Military Institute, and for efficient and meritorious services during the war, promoted Captain of Engineers in the late C. S. Army.

Professor of Chemistry, Agricultural Chemistry, Geology and Mineralogy, Col. LEWELLYN HOXTON, "Distinguished graduate" of West Point Military Academy, and late Chief of Artillery to Hardee's Corps.

Professor of Latin, French, Ethics and Belles Lettres, to be appointed shortly.

Surgeons Drs. E. & W. S. STRUDWICK.

New appointments will be made, and the Chairs now filled will be subdivided as soon as the number of Cadets makes it desirable.

Applicants for Professorships must be gentlemen of Scientific and Military education, who have served in the field.

Candidates for admission as Cadets are advised to come without delay. Until the 1st. of February next, all those Cadets present at the Academy, will be pushed forward in their studies irrespective of classes, so as to enable them, at that time, to enter the most advanced classes for which they may be found qualified.

By coming at once they may gain an entire year in the term of their education.

40 ACRES EXCELLENT LAND.

The Water Power at present improved is sufficient for a large Factory, and the most valuable power is yet unimproved. This property is only two and a half miles from the North Carolina Central Rail Road Shops, and midway between Charlotte and Goldsboro'. It is a valuable location for a Cotton Factory, and one of the cheapest markets for purchasing cotton.

Purchasers are invited to examine the property which they can do by stopping at the Company Shops.

Only one tenth of the purchase money will be required in cash.

LIFE INSURANCE.

MANY insure their lives because they see the folly of neglecting to do so. Many who do not insure argue that it is folly to insure. Which is right? If those who do not insure can cite instances of the harm done by a policy of life Insurance, if they can point out men who have lost $5,000 to $100,000 by Life Insurance, then upon proof of same, we must believe them. Hundreds of instances can readily be shown where parties have been benefited to this extent.—In North Carolina there are some Widows and Children ready to testify to the good resulting from a life Insurance on their only earthly dependence.

The "Etna Life Co., in loosing $23,000 the past year has relieved want—and now with over $4,000,000 of assets—offers sure protection to all those who will avail themselves of her liberal terms, by calling on

FOR SALE.

ONE THOUSAND ACRES of valuable land, lying on Neuse River, in the County of Johnson, and on both sides of the N. C. R. Road, between Smithfield and Stallings' Depots.

I prefer selling the whole tract to one man, but will cut it into hundred acre tracts to suit purchasers.—To a company of men wishing small farms and pleasant healthy locations, it holds out good inducements, as I will sell on favourable terms. 1867. "THE WORLD" 1867.

THE ATTENTION OF THE PUBLIC IS INVITED to the claims of **"THE WORLD"** as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merit consists in its character as

An enterprising and Trustworthy Newspaper.

The next year bids fair to be a more critical one in the history of our free institutions, than even any of the eventful ones that have preceded it. The first requisite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with conscientious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, nor to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy, and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance.
